

JOB SUMMARY-Arborist Tree & Shrub Plant Health Care Professional

We are looking for the best of the best! Need a Flexible Schedule? Let's discuss options!

Dial Environmental is an owned operated Family Business.

Over the past 8 years Dial Environmental's Lawn Care and Plant Health Care divisions have grown 300%. Our growth is fueled by our great team of ambitious, hardworking, and caring employees. The leadership team is focused on the needs of employees, promoting company culture "have fun doing what you do best". Flexible work schedules are created to maintain full-time status and preserve weekends for family time.

Dial Environmental is seeking like-minded individuals that have a passion for creating, preserving, and caring for lawns, shrubs, and trees. We offer on-the-job training as well as NJ State Certified training and advancement. **Must have minimum of 3 years of full-time field experience and possess a valid Category Applicator License issued by NJDEP.**

PROFESSIONAL EXPERIENCE

- Minimum 3 Years Professional Experience
- Foliar Applications
- Root Feeding
- Systemic Treatments
- Pruning
- Mulching Applications

RESPONSIBILITIES

- Monitor and inspect the health of trees, shrubs, turfgrass and other horticultural specimens to ensure they remain healthy.
- Provide ongoing service treatments to replenish nutrients, build health and protect from insect and fungal growth.
- Effectively operate, calibrate, and maintain application equipment.
- Valid drivers license and clean MVR to operate company service vehicles.

Employee Centric. Fun. Individualism. Flexible. Transparency. Share Difficulties.

Great team of ambitious, hardworking, and caring employees. The leadership team is focused on the needs of employees, promoting company culture "have fun doing what you do best". Flexible work schedules are created to maintain full-time status and preserve weekends for family time.
